HEXIS PRODUCTION

As a manufacturer and distributor of self-adhesive films since 1989, the HEXIS Group has established itself as a major player in the visual communication and surface protection market.

Its premium Made in France products, its culture of customisation and its ability to innovate and diversify its offer have established its reputation among visual communication professionals throughout the world.

By listening to the market and keeping a close eye on changes in consumer trends and the emergence of new needs, the company has been able to diversify its application domains over the years, strengthened by its capacity for innovation.

It can thus meet all the demands of the adhesive film market.

Self-adhesive films for computer aided cutting, media for large format digital printing, conformable films for full wraps and decoration, films for surface or paint protection, films for textile marking... HEXIS offers more than 1000 different items in its catalogue and launches about 30 new products per year.

OUR PRODUCT LINES

TAKE HEAT EASY®: HEXIS technology applied to a premium printable cast PVC film.

PURE ZONE®: an antimicrobial protection film that reduces bacterial growth and viral activity, killing viruses and bacteria 24/7.

The **BODYFENCE®** range, the showpiece of HEXIS innovation.

PVC FREE: less solvents, more eco-design.

HEX'PERIENCE: express the creative power within you!

SKYTINT: join the ultra-performance era of solar films.

HEXIS AS MANUFACTURER

LABORATORY

Made to measure for your projects, for continuous innovation.

DEVELOPMENTS

Custom designs available.

PRODUCTION EQUIPMENT

To offer you the best technology available.

AUDIT

Of industrial specifications.

CUSTOM COLOURS

Specifics on request.

ANALYSIS & EXPERTISE

On existing materials or products (product classification for example).

THE MANUFACTURER'S STRENGTH

- 1 Product development
- 2 Innovation
- 3 Quality policy
- 4 Investment in production equipment
- 5 Safety policy

Each HEXIS production site operates its own laboratory. Controls, applied development and production monitoring involve 19 employees in Frontignan and Hagetmau. The company invests an average of 2.5% of its turnover in research and development.

Strict quality control of raw materials and finished products is carried out during the manufacturing process and at the end of the production line.

HEXIS INNOVATION

PURE ZONE® RANGE

Antimicrobial films to fight bacteria and viruses (including the SARS-CoV2, the strain behind Covid-19).

BODYFENCE® RANGE

Self-healing vehicle body protection films (PPF - Paint Protection Film).

SMARTAC A5000 Evolution

PVC-free plotter film.

SUPTAC HXS5000

Plotter film with HEX'Press liner.

SKINTAC HX500WG2 & PC500G2/M

PVC-free printable compound with HEX'Press liner.

SKINTAC HX45000

Wrapping film with extended guarantees, with HEX'Press liner.

SKINTAC THE190EVO

Printable cast film with THE adhesive to facilitate installation.

TEXTILE RANGE

Printing and cutting films for textile marking.

OUR MARKETING TOOLS

Product catalogues and catalogues for specific applications

Colour charts (A4, swatches or folders)
Brochures and swatches

Trade exhibitions, workshops, roadshows

Press advertising

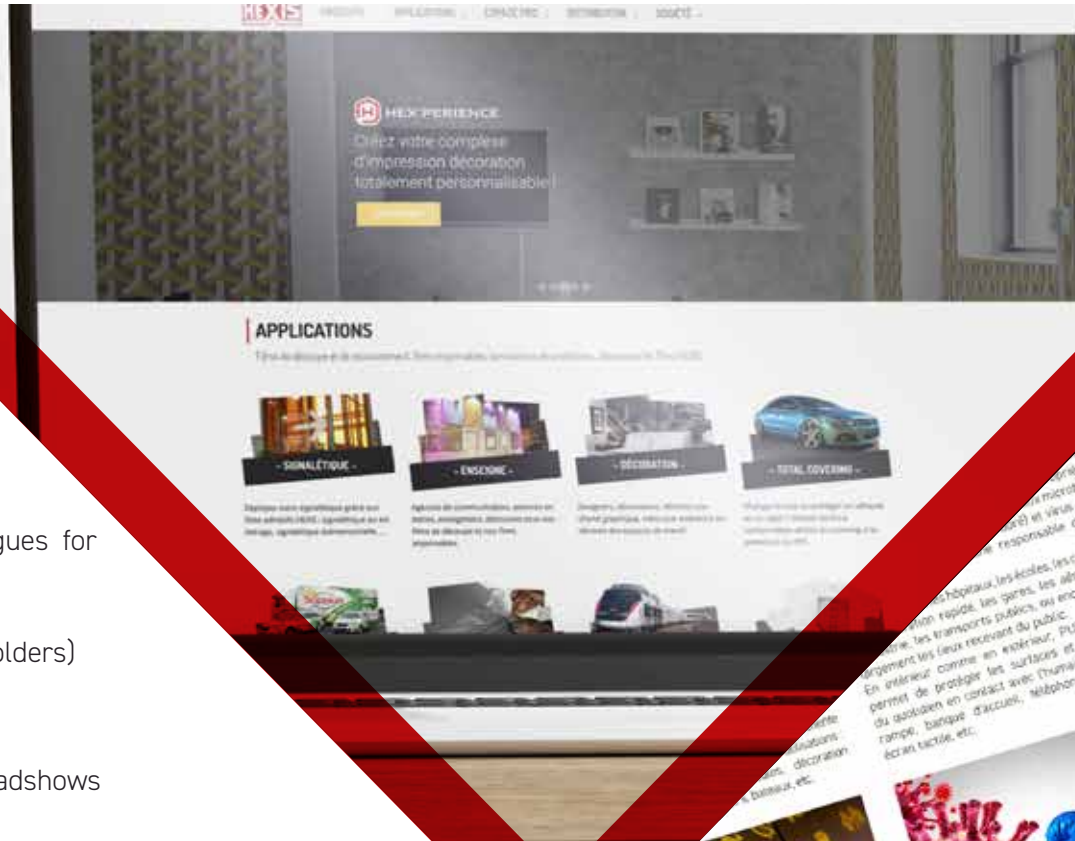

Corporate website and website dedicated to training courses
Online shop
Mail shots

Corporate videos presenting projects
Training videos

Wide media coverage on social networks

TRAINING CENTRE

Who better than HEXIS, manufacturer of self-adhesive media since 1989, to train you in the installation of self-adhesive films?

Our team of HEX'perts has a wealth of experience in the application techniques and use of HEXIS films.

Backed by years of experience, our HEX'perts provide the best of their know-how by offering training courses adapted to all levels.

A complete, qualitative, professional and qualifying training offering to discover the countless possibilities available with self-adhesive films:

- **Signage**
- **Full wraps**
- **BODYFENCE protection films**
- **Interior decoration**
- **Solar films**
- **RACING OPTICS films**
- **Graphics on glass**
- **PURE ZONE® antimicrobial protection films**
- **Digital imaging**

In order to train the elite of mediapplicators, HEXIS has 9 training centres spread around the world.

Art and method are at the heart of the HEXIS **Application Division!**

A COMMITTED CSR POLICY

CERTIFICATIONS

HEXIS has ISO 9001:2015 and ISO 14001:2015 approval.

ENVIRONMENTAL IMPACT

HEXIS complies with ICPE regulations.

CSR COMMITMENT

The HEXIS Group's objective in 2022 is to reaffirm its CSR approach.

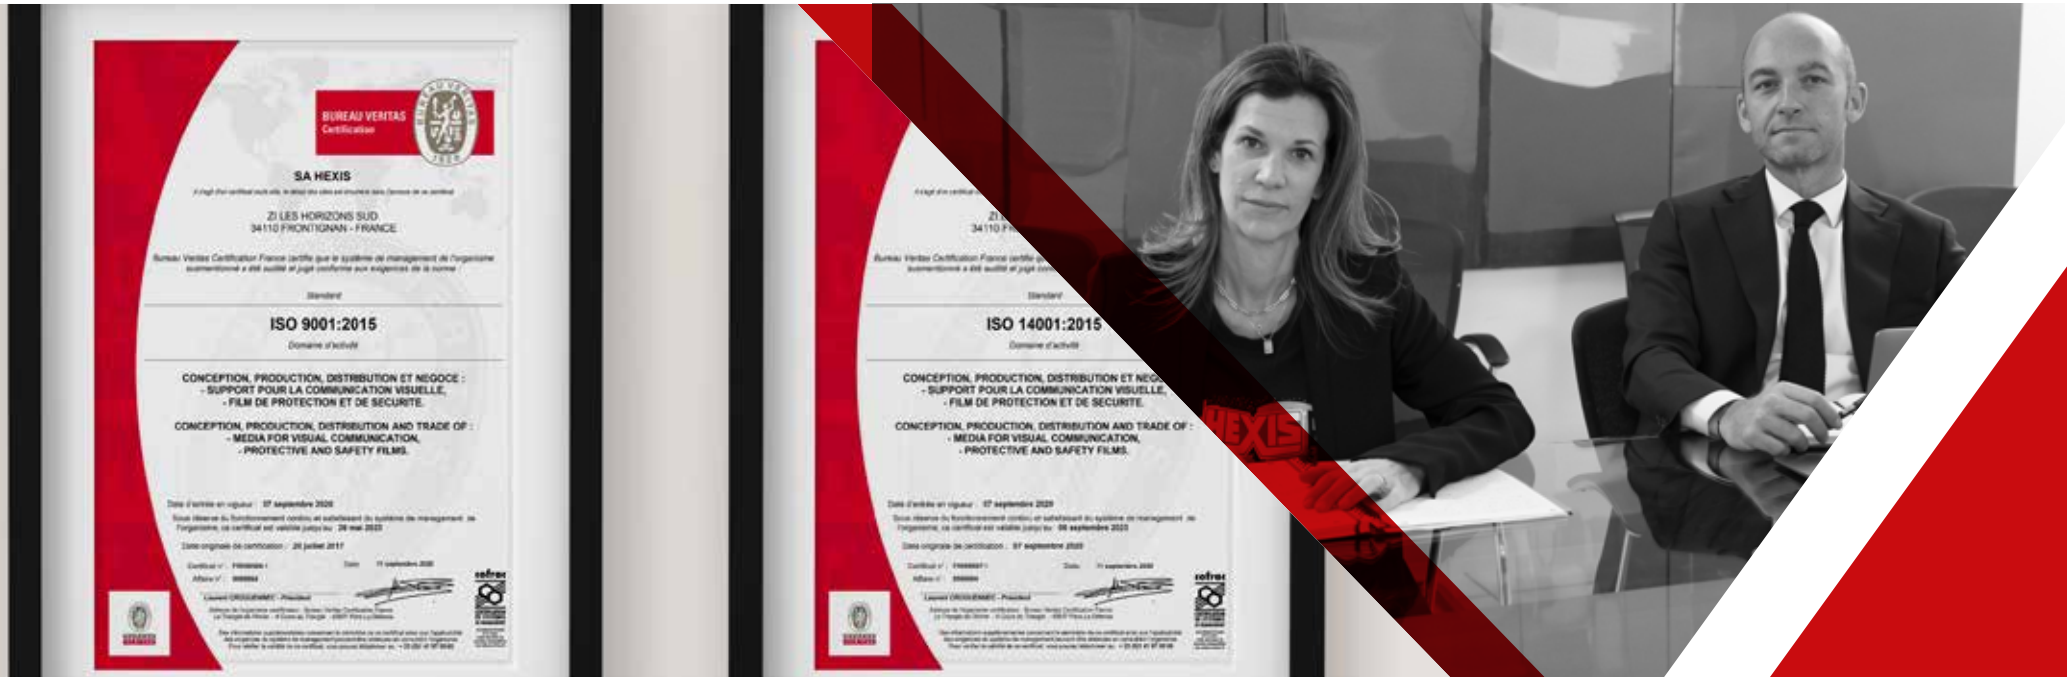

HUMAN VALUES

HEXIS respects social cohesion and integration.

A CONTINGENCY PLAN

This plan makes it possible to improve reactivity in order to deal with major risk scenarios.

HEXIS AS MANUFACTURER - MADE IN FRANCE

The entire production of HEXIS films is guaranteed Made in France.

The company manufactures its rolls in its two factories in Frontignan (Hérault) and Hagetmau (Landes). It thus guarantees its customers a stable production and adopts a premium positioning.

Aware of the many mutations that are taking place worldwide, both in terms of the environment and society, and in terms of R&D and export, HEXIS has decided to join La French Fab, the new label of French industry to promote our industrial know-how on an international scale.

The objective, among others, is to stimulate the growth of our industry so as to enable it to meet the many challenges of today.

Whether it is a question of focusing on new technologies, modernising the production tool, training young people in know-how and new skills, performing on the environmental side, both in terms of products and production modes, or conquering new markets abroad, the HEXIS Group, a member of La French Fab, is aware that its growth depends on adapting to these new economic paradigms.

DEVELOPMENT OF 100% PVC-FREE PRODUCTS

This new water-based production technology reduces the amount of solvents used in manufacturing by up to 85%.

COMPLIANCE WITH ICPE REGULATIONS

Production sites that comply with the new 400 headings of the nomenclature of Installations Classified for the Environment.

EMISSIONS REDUCTION & HEAT RECOVERY*

Investment of more than 6.5 million euros in facilities and equipment to improve the treatment of effluents.

Periodic control of atmospheric emissions in accordance with the regulations in force.

*IN PARTNERSHIP WITH ADEME (AGENCY FOR THE ENVIRONMENT AND ENERGY MANAGEMENT)

WASTE RECOVERY & RECYCLING

Monitoring, statistical analysis and reduction of waste produced.

Recycling of non-adhesive PVC, production liners and cardboard through service providers.

Office refuse recycled.
